I had the enclosed letter from Gallagher today and sent telegram at once. We must squeeze her in somewhere. I expect she has been through things. It has just occurred to me that if she is free by 19th she might be able to get to Bath quite easily. and come on with you on 20th. I've given her your address at Shelford & Bath. Of course dates may not coincide. She knows Cornwall & would find her way here through any difficulty. but just in case it would help her and not embarrass you. Love Ada.
